

# Touch PC 19"

## Touch PC - Ready installed for MagicQ

The ideal PC for running MagicQ PC. Attention can not be used for MagicVis and MagicHD!

## All-in-One PC

With this all-in-one we expand the product range of All-in-One PCs and introduces its largest model so far. It is the first one in a 19.5 inch format and with a capacitive touchscreen. An Intel Ultra-Low-Voltage (ULV) processor makes for high computing power while it keeps energy consumption at a low level. Thanks to its passive cooling, the system is virtually noiseless, maintenance-free and approved for 24/7 nonstop operation. Particularly suitable for vertical applications is the arrangement of connectors at the bottom and the IP54 compliant front panel which is dust -protected and protected from splashing of water.
